Construction project

.....

Name*	Street, No.
	Country, postal code, city

.....
Building
.....

Standard

- Normal
- Low-energy
- Passive house

Status*

- New build
- Renovation
- Year of construction

Construction phase*

- Already under construction
- In planning
- Planned start of construction

Housing unit*

- Offsettable area in m²
- Single-family home with no attached apartment
 - Single-family home with attached apartment/multi-family home

Basement*

- Within thermal envelope
- Not to be ventilated
- None

Roof top*

- Within thermal envelope
- Not to be ventilated
- None

.....
Ventilation unit
.....

Type

- Central supply/exhaust air system (per housing unit)**
 - With heat recovery
 - Heat and moisture recovery
- Central exhaust air system (per housing unit)**
 - Central exhaust air fan
 - Domestic hot water heat pump
- decentralised with heat recovery (for single room)**

Desired installation location

- Basement
- Utility room
- In thermally insulated roof top
- In suspended ceiling
- Room, e.g. office

.....
Air duct system
.....

Supply air/exhaust air ducting

- In concrete ceiling
 - In thermal insulation under screed
 - In suspended ceiling
 - In roof top (insulated or uninsulated)
 -
- Air 56

Outside exhausted air system

- Wall + roof
- Roof hoods
- Roof hood colour
- Exterior wall
- Exterior wall double grille
- brick-red
- black

Comments / Notes

.....
Planning documents
.....

The following documents are available in electronic form

- Floor plans (with details of the planned space usage and offsettable useful area)
- Sectional views of the building (with room height data)
- Building specification
